A NECESSARY CHANGE – *STOP RECYCLING SHREDDED PAPER*

With "in-home" paper shredding on the rise, the problem of shredded paper in single stream recycling plants has gotten worse. Whether loose or bagged, the shred spills like confetti onto conveyors and clogs machinery. The result – most shred just contaminates our recycled glass or ends up as residue.

DO NOT RECYCLE SHREDDED PAPER AT THE CURB AND LOCAL DROPOFFS.

For residents who do want to recycle shredded paper:

- Bring it to our FREE Paper Shredding Days
- Bring it to a special shredded paper dropoff at the County Resource Recovery Complex in Mansfield (Monday – Friday 7am-4:30pm; Saturday 7-11:30 am)

*Smart Tips to **RECYCLE RIGHT***

- Put recycling curbside by 6 am
- NO plastic bags or plastic wrap
- Empty and flatten boxes
- Rinse containers clean before recycling
- *You can screw caps back on **empty** lightweight bottles*, like water bottles

RECYCLING WORKS, WHEN WE RECYCLE RIGHT.

NO pots and pans, propane tanks, batteries, light bulbs, wire hangers, plastic bags, and medical syringes. ***These damage equipment and put our workers at risk.*** Follow the guidelines on the back of this flyer.
